

Metal Safe Graffiti Remover - User Guide

Metal Safe Graffiti remover is a strong, fast acting, liquid graffiti remover for exterior and interior surfaces. It safely penetrates and loosens graffiti and makes it easy to remove.

It is specifically formulated for use on many different non-porous surfaces including pre-finished metal and powder coated surfaces such as over head doors, colour bonded fencing, post boxes, signal boxes, traffic signs, painted metal surfaces and any other metal surfaces. (Metal Safe Graffiti Remover is not recommended for rubber and plastic surfaces, Sign Safe or General Purpose Graffiti remover may be more suitable on signs printed with printers ink)

Exterior and Interior Graffiti removal process:

- 1: Put on your protective clothing, safety goggles and gloves
- 2: Check the surface for excess dirt: The surface does not have to be perfectly clean but if there is a lot of traffic film, soot or substantial dirt, it is advisable to clean or power wash this off first.
- 3: Test a small hidden area prior to full application
- 4: **Wash down the surface first with water using a rag or sprayer;**
- 5: Shake the product thoroughly to activate it and pour required amount of product onto another rag, sponge or triple 000 wire wool and dab liberally onto the graffiti.
- 6: Let the product activate on the surface for about 60 seconds, then agitate with a rag, sponge or triple 000 wire wool.
- 7: Wash off with water using a new rag.
- 8: repeat steps 4-7 if necessary

Equipment needed

- 1: Smart Metal Safe Graffiti remover
- 2: Safety equipment (chemical resistant gloves, goggles etc)
- 3: Supply of water
- 4: Rags, sponges, triple 000 wire wool, sprayer

Results and Benefits

Metal Safe Graffiti Remover dramatically reduces the time it takes to remove graffiti, one application is effective in removing the typical graffiti, with no damage to the original underlying surface, within minutes saving significant time and labour costs.
