

Elite WINTER Graffiti Remover

An easy to use Gel Graffiti remover with deep penetration and fast acting power for exterior surfaces. Elite WINTER Graffiti remover penetrates and loosens spray paint graffiti and allows for easy removal of graffiti from the surface. It is specially formulated for use when temperatures are below 5°C for long periods of time. Effective on the removal of shadows or ghosting.

Elite Winter Graffiti remover can be used on masonry, brick, concrete, stone, mild steel, stainless steel, painted surfaces and wooden surfaces. (do not use Elite Winter Graffiti Remover on plastic, galvanised metal surfaces or non-ferrous metal surfaces such as aluminium)

Exterior Graffiti removal process:

- 1: Put on your protective clothing, safety goggles and gloves
- 2: Check the surface for excess dirt: The surface does not have to be perfectly clean but if there is a lot of traffic film, soot or substantial dirt, it is advisable to clean or power wash this off first.
- 3: Test a small hidden area prior to full application
- 4: Shake the product thoroughly to activate it and pour required amount into polypropylene container
- 5: Apply with brush or roller starting from the bottom up
- 6: wait about 90 seconds then pressure wash off
- 7: repeat steps 4-6 if necessary

Equipment needed

- 1: Elite Winter Graffiti remover
- 2: Safety equipment (chemical resistant gloves, goggles etc)
- 3: long handled roller with quality roller (re-usable if rinsed properly)
- 4: Polypropylene container for dispensing
- 5: If the surface is painted it is advisable to wet the surface before using Elite Winter
- 5: pressure washer: we recommend 2200 PSI pressure washer and cold water, in cooler temperatures hot water and higher PSI may be more effective.

This product is for use by professional contractors only - this user guide should be read prior to using Elite Graffiti remover. The SDS sheet and User guide documents must legally be kept in the vehicle(s) and storage areas at all times.
